

# Irregular Shaped Inground Pool Installation Instructions

Open cover over the pool and set into position. Ensure that the seams on the cover are parallel to the roller. (This may not be possible with some types of covers). For irregular shaped pools, fold the cover and attach the strap as shown. Attach the cut cover.

When cutting the cover, allow a 1 1/2" wide border around the pool edge to compensate for shrinkage.

For irregular shaped pools, fold the cover and attach the strap as shown. Attach the cut cover to the roller with the blue straps by folding the cover in a straight line as shown in the diagrams. Ensure that the fold in the cover is straight.
